

Receipt of data on registration of a vehicle at the customs from the Unified Automated Information System of the Federal Customs Service of the Russian Federation.

The service can be of interest to:

1. Banks (*prevention of credit fraud involving vehicles*)
2. Insurance companies (*search of stolen vehicles*)
3. Leasing companies (*prevention of credit fraud involving vehicles*)
4. Other companies involved in search of stolen vehicles.

You can order the service using the vehicle identification parameters:

- Identification number (VIN);
- Engine number;

During the research, we will check whether the vehicle has been registered in the information resources of the customs and provide you with the following information:

- Identification number (VIN);
- Engine number;
- Model/Manufacturer;
- Customs office where the vehicle has been registered;
- Export country;
- Import certificate of vehicle;
- Date of issue and number of import certificate of vehicle;
- Date of issue and number of vehicle registration certificate;
- Date of issue and number of cargo customs declaration;
- Date of issue and number of receipt voucher of a vehicle.

If you wish to receive a confirmation that a vehicle has been registered in the information resource of the Unified Automated Information System of the customs authority of the Russian Federation, this service is for you!

Price of the service: 88 EUR.
